

## Data sheet

SM 032 - Analog output (032-1CD30)

Technical data

| Order no.                                               | 032-1CD30                        |
|---------------------------------------------------------|----------------------------------|
| Туре                                                    | SM 032 - Analog output           |
| Module ID                                               | 0509 2560                        |
| General information                                     |                                  |
| Note                                                    |                                  |
| Features                                                | 4x AO<br>16 Bit<br>Voltage 010 V |
| Current consumption/power loss                          |                                  |
| Current consumption from backplane bus                  | 65 mA                            |
| Current consumption from load voltage L+ (without load) | 20 mA                            |
| Power loss                                              | 0.8 W                            |
| Technical data analog outputs                           |                                  |
| Number of outputs                                       | 4                                |
| Cable length, shielded                                  | 200 m                            |
| Rated load voltage                                      | DC 24 V                          |
| Reverse polarity protection of rated load voltage       | yes                              |
| Current consumption from rated load voltage             |                                  |
| Voltage output short-circuit protection                 | yes                              |
| Voltage outputs                                         | yes                              |
| Min. load resistance (voltage range)                    | 5 kOhm                           |
| Max. capacitive load (current range)                    | 1 µF                             |
| Max. inductive load (current range)                     | 10 mA                            |
| Output voltage ranges                                   | 0 V +10 V                        |
| Operational limit of voltage ranges                     | +/-0.2%                          |
| Basic error limit voltage ranges                        | +/-0.1%                          |
| Destruction limit against external applied voltage      | max. 24V                         |
| Current outputs                                         | -                                |
| Max. in load resistance (current range)                 | -                                |
| Max. inductive load (current range)                     | -                                |
| Typ. open circuit voltage current output                | -                                |
| Output current ranges                                   | -                                |
| Operational limit of current ranges                     | -                                |
| Basic error limit current ranges                        | -                                |
| Destruction limit against external applied voltage      | -                                |
| Settling time for ohmic load                            | 150 µs                           |
| Settling time for capacitive load                       | 1 ms                             |
| Settling time for inductive load                        | -                                |
| Resolution in bit                                       | 16                               |
| Conversion time                                         | 200 μs all channels              |
| Substitute value can be applied                         | no                               |
| Output data size                                        | 8 Byte                           |
| Status information, alarms, diagnostics                 |                                  |

## YASKAWA

| Status display                                              | yes                        |
|-------------------------------------------------------------|----------------------------|
| Interrupts                                                  | no                         |
| Process alarm                                               | no                         |
| Diagnostic interrupt                                        | no                         |
| Diagnostic functions                                        | yes                        |
| Diagnostics information read-out                            | possible                   |
| Supply voltage display                                      | green LED                  |
| Group error display                                         | red LED                    |
| Channel error display                                       | red LED per channel        |
| Isolation                                                   |                            |
| Between channels                                            | -                          |
| Between channels of groups to                               | -                          |
| Between channels and backplane bus                          | yes                        |
| Between channels and power supply                           | yes                        |
| Max. potential difference between circuits                  | -                          |
| Max. potential difference between inputs (Ucm)              | -                          |
| Max. potential difference between Mana and Mintern (Uiso)   | DC 75 V/ AC 50 V           |
| Max. potential difference between inputs and Mana (Ucm)     | -                          |
| Max. potential difference between inputs and Mintern (Uiso) | -                          |
| Max. potential difference between Mintern and outputs       | -                          |
| Insulation tested with                                      | DC 500 V                   |
| Datasizes                                                   |                            |
| Input bytes                                                 | 0                          |
| Output bytes                                                | 8                          |
| Parameter bytes                                             | 10                         |
| Diagnostic bytes                                            | 20                         |
| Housing                                                     |                            |
| Material                                                    | PPE / PPE GF10             |
| Mounting                                                    | Profile rail 35 mm         |
| Mechanical data                                             |                            |
| Dimensions (WxHxD)                                          | 12.9 mm x 109 mm x 76.5 mm |
| Net weight                                                  | 60 g                       |
| Weight including accessories                                | 60 g                       |
| Gross weight                                                | 75 g                       |
| Environmental conditions                                    |                            |
| Operating temperature                                       | 0 °C to 60 °C              |
| Storage temperature                                         | -25 °C to 70 °C            |
| Certifications                                              |                            |
| UL certification                                            | yes                        |
| KC certification                                            | yes                        |
|                                                             |                            |
